Student Employability and Entrepreneurship Development [SEED]

Entrepreneurship Mentorship

The Student Entrepreneurship and Employability Development (SEED) programme is offering an entrepreneurship mentoring platform for student entrepreneurs at the Nelson Mandela University.

What is the entrepreneur mentorship about?

The entrepreneurship peer mentoring is a six month group mentorship for student entrepreneurs within the university.

The purpose of the peer mentoring is to create a platform for more experienced student entrepreneurs to mentor and support early stage entrepreneurs in building a successful start up business while balancing academic commitments. Topics to be covered in the mentorship programme includes capital finances, business planning, branding, and growing your businesses.

Who can apply?

- Must be a registered student at the Nelson Mandela University
- Must have an operational business
- Must be available to attend all mentorship sessions
- Must have access to a device (cell phone or laptop) and connectivity as programme is fully online

How can you apply?
Visit seed.mandela.ac.za for the application form.

Closing date for applications is Tuesday 19 April 2022.

*The Student Employability and Entrepreneurship Development programme is funded by the DHET UCDG.
